NGUYEN TRAN HUYNH THUY OANH

Intern Software Developer

081-683-7690 thuyoanhhh1312@gmail.com Binh Thanh, Ho Chi Minh City

ABOUT ME

Intern Software Developer with hands-on experience in React and Node.js/Express (MySQL/SQL). Skilled in building RESTful APIs, JWT/refresh token auth, and shipping end-to-end features (CRUD, RBAC, user flows) with clean code and Git-based collaboration.

SKILLS

- **Frontend:** React.js, Vite, JavaScript (ES6+), React Router, HTML5, CSS3
- **State Management:** Redux, React-Redux
- **API & Auth:** REST APIs, Axios, JWT
- **UI:** Tailwind CSS, Ant Design
- **Tools:** Git/GitHub, Postman, Figma
- **Backend/Mobile (Familiar):** Node.js, Express, MySQL, Flutter

PROJECTS

E-COMMERCE WEB APP

Techical: React (Vite), Redux, React Router, Axios, REST API | Node.js/Express, MySQL | Flutter
Role: Front-end Developer (Primary) | Backend & Mobile Contributor | Team: 2

- Built customer/admin portals with **role-based route guards** to protect admin screens.
- Implemented **Redux auth/cart state** with localStorage persistence for checkout and orders.
- Added **Axios interceptors** for token refresh and request retry on failed API calls.
- Built multi-step checkout with promo validation and inventory-aware ordering flow.
- Integrated **PhoBERT sentiment classification** to label reviews and support admin moderation/insights.
- Implemented Express REST endpoints for checkout/payment and delivered Flutter features consuming the same APIs for cross-platform consistency.
